

THE OPEN SOURCE ANALYTICS CONFERENCE

November 19-21, 2024. Online event.

[Prospectus](#)

What is OSA CON about?

OSA CON is the annual rendez-vous of the **Open Source Analytics** Community (OSA COM).

OSA CON and OSA COM bring together data scientists, engineers, analysts, infrastructure gurus and product managers along with open source communities and leaders.

Participants will learn, share, connect and discuss the latest developments in open source analytics including data ingestion, orchestration, databases, infrastructure, governance, visualization, AI, the whole modern data stack.

Why should I sponsor OSA CON?

Open source analytic systems are the latest IT cathedrals and OSA Con is the center of the community that is building them. There are many great reasons to sponsor:

- You want to establish your company as a leader in the broader analytic space
- You produce open source analytic software and want to reach a wider audience
- You are a cloud provider and want to attract more open source workloads
- Open source projects are critical to your business and you want to promote their development
- You want to hire experienced developers
- You believe in the vision of open source analytics and want to help the cause

Conference format and topics

#OSACon / #OSACom

- 100% digital and 100% free
 - 3 days of Keynotes, talks and panels
 - Session types:
 - Project reports and applications
 - Practitioner use cases
 - Benchmarks and technology comparisons
 - 2024 Topics:
 - Project Reports
 - Applications
 - Open Source
 - Data Storage and Query
 - Visualization Technologies
 - Orchestration
 - Data Science
 - Artificial Intelligence
 - Platform Management
 - Security, Privacy, and Governance
 - Crazy New Tech
-

Event features

Sessions will be recorded and promoted on social networks.

2023 sessions

These sessions were presented at OSA Con 2023 on December 12-14, 2023.

Search			
Title	Speaker(s)	Recording	Slides
'New' Workflow Orchestrator in town: Apache Airflow 2.x	Jarek Potiuk	📺	📄
A Guide to Responsible Data Collection in Open Source	Avi Press	📺	📄
An Overview of DuckDB	Gabor Szarmas	📺	📄
Apache Pulsar: Finally an Alternative to Kafka?	Julien Jakubowski	📺	
Build a fully-managed OSS compatible lakehouse with BigLake Managed Tables	Jeffrey Nelson	📺	
Building a ChatGPT Data Pipeline with RisingWave Stream Processor and Astra Vector Search	Mary Grygleski & Karim Wolok	📺	📄
CICD Pipelines for dbt: DIY or DIWhy?	Cameron Cyr	📺	
Data Alchemy: Transforming Raw Data to Gold with Apache Hudi and DBT	Nadine Farah	📺	
Data as Code: Project Nessie brings a Git-like experience for Apache Iceberg Tables	Alex Merced	📺	📄
Data on GKE	Akshay Ram	📺	
ETL with Meltano + Singer in the LLM era	Pat Nadolny	📺	📄
From Click to Insight: Transforming Streams with Apache Flink	Andrey Gusarov	📺	📄
From Zero to Superset Hero: Data visualisation as a code with Terraform	Viktoria Ondrejova	📺	📄
Getting Started with Polars	Matt Harrison	📺	

- Global focus
- Free access
- Participants chat
- Recordings accessible as soon as the session ends
- Slack community
- Space for sharing resources
- Virtual swag bag

Content that Lives On Beyond the Event

OSA CON 24[About](#)[Sessions](#)[Speakers](#)[FAQ](#)[Call for presentations](#)

An Overview of DuckDB

Speaker(s):

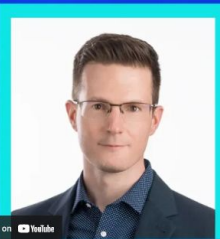

[Download slides](#)

DuckDB is an analytical database management system. It runs in-process, which makes its configuration trivial and eliminates any overhead between the client application and the database. DuckDB is open-source and highly portable with integrations for Python, R, Java, Julia, and 10+ other languages. DuckDB has top-notch support for data formats (CSV, Parquet, JSON, feather) and data sources (https, s3, gcs, etc.). This talk will introduce the DuckDB system, explain its key design decisions, and demonstrate how it is able to scale even on a single laptop.

Sponsorship opportunities

#OSACon / #OSACom

Reasons to sponsor

*Connect with the doers,
data scientists, engineers,
analysts, infrastructure
gurus and product
managers, along with
Open Source communities
and leaders.*

- ✓ Reach technical decision makers in key companies
- ✓ Reach project leaders and start-up founders
- ✓ Share your success story
- ✓ Reach out to a global audience

Estimated impact of OSACON 2024

*We are expecting
5k registered
participants, from
all over the world*

- 5k registrations
- +2k live viewers
- +6k recordings views
- +1.5k leads (participants who accept to share personal data ~30%)
- 100+ live viewers by session

Reach

We will run a global promotion campaign consisting of:

- Contacting community members
- Communicate through the different Open Source project channels
- Communication focused on the doers, as in the leaders
- Promotion within previous editions participants
- Direct invitations to organizations interested in data analytics.
- Partnering with the different open source communities

Sponsorships

	Gold (3 available)	Silver (5 available)	Partner	Community Collaborator*
Benefits	\$10,000	\$5,000	\$1,000	-
Branded talk ("session presented by X") - includes call to action. Talk is recorded and stays available for on-demand access. Post session meetings.	Yes	Yes	Elevator pitch (3 mins, pre-recorded). This will be shown once per day, totaling 3 times.	-
Attendees contact (Opt-ins)	Sponsored session contact list	Email to attendees with sponsor call to action	Partner opt-in contact list.	-
Option to include a gift in the virtual participant kit.	Yes	Yes	Yes	Yes
Brand presence on website	Gold level	Silver level	Partner level	Community level
Brand presence on live session	Gold level	Silver level	-	-
Brand presence on recordings (bumper)	Gold level	Silver level	-	-
Social media mentions	3	Group sponsor posts	Group sponsor posts	Group sponsor posts
Newsletter highlight pre-conference	Yes	-	-	-
Mention in event chat	1	1	-	-
Virtual booth	Yes	Yes	Yes	Yes

*Community Collaborators must commit to promoting the event in their communication channels.

What you can expect...

For all the sponsorships we will deliver:

- Sponsors guide
- Media kit for promoting your sponsored talk
- Speakers guide and tech-checks
- Final report including:
 - Reach results
 - Participant demographics
 - Website analytics
 - Promotion campaign results
 - Social media promotions
- Talk recordings
